59 SOSTENIBILITÀ / SUSTAINABILITY

Una storia di famiglia A family history

La nostra è la storia di una famiglia e di una passione, quella per il legno, che dura da quattro generazioni. È nata con nostro bisnonno negli anni '20, è cresciuta grazie alle cure di nostro nonno Giovanni e si è trasformata in un'impresa moderna con l'ingegno di nostro padre Ettore, che ce l'ha affidata. Una passione che ha richiesto, e richiede, caparbia, competenza tecnica e dedizione, ma che ci ripaga ogni volta che vediamo un nostro portabito nella boutique di una prestigiosa casa di moda, nell'atelier di una delle grandi sartorie che portano l'eleganza italiana nel mondo o nella cabina armadio di una casa privata.

Proviamo orgoglio per la lunga storia che ci ha condotti fino a qui e che ci ha portati a sperimentare nuove essenze e nuovi materiali, come il plexiglass, e a carpirne i segreti. Possiamo contare su un know-how unico, su una creatività che apre sempre nuove strade e sull'amore per le cose ben fatte, una caratteristica di famiglia che non scende a patti sulla qualità dei materiali, delle lavorazioni e dei prodotti.

Giovanni, Cristina e Federica Toscanini

Ours is the story of a family and of a passion, that for wood, which has been going on for four generations now. It began with our great-grandfather back in the 20s, it has grown under the care of our grandfather Giovanni, to become a modern organization thanks to the talent of our father Ettore, who has passed it on to us. Our passion has demanded, and still does, a great deal of perseverance, technical expertise and dedication, but it keeps rewarding us every time we see one of our hangers in the boutique of a premium fashion brand, in the studio of one of the great tailors who bring Italian elegance around the world or in the wardrobe of a private house. We are proud of the long journey that has brought us till here and that has seen us experimenting new wood types and materials such as plexiglass, to finally discover all their secrets. We rely on a unique know-how, on a creativity that keeps on opening new ways and on an unceasing love for things well-made, a family trait that does not compromise on the materials, process or product quality.

Giovanni, Cristina and Federica Toscanini

Valori italiani Italian values

Crediamo nel valore del Made in Italy non come semplice etichetta, ma come dichiarazione di qualità, artigianalità ed eleganza intrinseca. Siamo legati alla nostra terra – la Valsesia – perché qui ci sono le competenze indispensabili a realizzare prodotti unici, capaci di soddisfare le richieste di clienti che si muovono in mercati dall'elevato quoziente estetico. L'Italia, per noi Toscanini, è la garanzia di poter fare le cose come riteniamo vadano fatte: con cura e attenzione per ogni più piccolo dettaglio.

La creatività qui trova terreno fertile e il sostegno di skill tecniche impensabili altrove. A Isolella Sesia, anche l'idea in apparenza più irrealizzabile ha interlocutori capaci che, studiando e provando, riescono a trovare la soluzione giusta per trasformarla in un prodotto esclusivo, un piccolo capolavoro di funzionalità ed estetica, pronto a sostenere ogni genere di capo nel modo più idoneo.

We believe that Made in Italy is a true value and not a mere label, it is a statement of quality, craftsmanship and elegance. We feel deeply rooted in our land – Valsesia – because here we find the essential expertise we need to create unique products able to meet the demand of our clients, who work in highly demanding markets also under the aesthetic point of view. Italy allows us to do things just in the way they should be done: with care and attention for every little detail.

Here creativity finds its ideal setting and the support of technical skills unimaginable elsewhere. In Isolella Sesia even the less practical idea can find someone who, by studying and trying, succeeds in finding the right solution to transform it into an exclusive product, a small masterpiece of functionality and aesthetics, ready to support any kind of garment in the most suitable way.

Una collezione evoluta An ingenious collection

L'elemento unificante della nostra lunga storia è la costante ricerca della qualità. Da un lato, è una caratteristica della nostra famiglia voler fare sempre meglio, dall'altro i grandi brand della moda, con cui abbiamo la fortuna di lavorare in tutto il mondo, ci stimolano a immaginare, progettare e infine realizzare soluzioni con un livello crescente di complessità.

Combinare fattibilità e design, superare gli ostacoli facendo ricerca avanzata sui materiali e sulla tecnologia sono le attività su cui puntiamo per essere all'altezza delle aspettative della nostra clientela. L'esperienza che abbiamo maturato, e che ci viene riconosciuta, compone un know-how solido e unico, che oggi siamo orgogliosi di mettere a disposizione dei clienti privati, per soddisfare le esigenze di quanti amano il bello e la funzionalità, l'ordine e la possibilità di personalizzare gli spazi come, per esempio, la cabina armadio o un angolo della casa, secondo i propri desideri.

The unifying element in our long history is the constant search for quality. On the one hand, it is our family characteristic to strive to always do better and on the other, the big fashion brands we are privileged to work with all over the world stimulate us to imagine, design and finally create ever more complex solutions.

To combine feasibility and design and to surmount obstacles by carrying out advanced research into materials and technology are the activities we embark on in order to meet our clients' expectations.

The experience we have gained, and for which we are renowned, constitutes solid, unique know-how which we are proud to put at the disposal of private customers in order to meet the requirements of all those who love what is beautiful and functional and who appreciate order and the possibility of personalising spaces according to their wishes, such as a walk-in wardrobe or a corner of their homes.

La collezione Hôtellerie nasce dall'idea di offrire una gamma completa di portabiti e soluzioni per appendere e riporre i capi nei guardaroba degli hotel e ristoranti, coordinando e personalizzando ogni prodotto per creare il guardaroba ideale. Un luogo di ordine e armonia, che offre al cliente un'esperienza "à la maison". Il guardaroba potrà essere completamente corredato di tutti gli accessori per coccolare il cliente: i portabiti sono dotati di efficaci soluzioni per renderli funzionali e esteticamente eleganti; gli appoggia-valigie sono disponibili anche in versione extra large per i modelli che si aprono a conchiglia. L'indossatore è declinato in versione lui e lei per le necessità di Madame e Monsieur.

Per i cassetti del guardaroba, la collezione Hôtellerie propone i welcome gifts in legno di cedro profumato e anti-tarme, personalizzati o completamente custom made nella forma e nei decori, così come le forme per le scarpe.

In occasione di grandi eventi lo stander, con il portabito Angie, dal design contemporaneo offrono funzionalità senza rinunciare all'eleganza.

Ciascun prodotto è realizzato in Italia con materiali pregiati e curato nei dettagli: ogni singolo articolo racchiude in sé tecnica e design, perfezione e unicità, la combinazione di valori perfetta per dialogare con un pubblico attento e raffinato.

The Hôtellerie collection comes from the idea of offering a complete range of clothes hanging and storing solutions for hotel and restaurant cloakrooms, coordinating and customizing each product to create the ideal cloakroom. A place of order and harmony that offers the customer an 'à la maison' experience. The cloakroom can be completely furnished with all the accessories to pamper the customer: the hangers are equipped with effective solutions to make them functional and aesthetically elegant; the luggage racks are also available in an extra-large version for the models that open like a shell. The valet stand is available in the versions for him and for her for the needs of Madame and Monsieur.

For the cloakroom drawers, the Hôtellerie collection offers welcome gifts in scented and anti-moth cedar wood, completely custom-made in shape and decorations, just like the shoe trees.

For major events, the stander with the Angie hanger, with a contemporary design, offer functionality without sacrificing elegance.

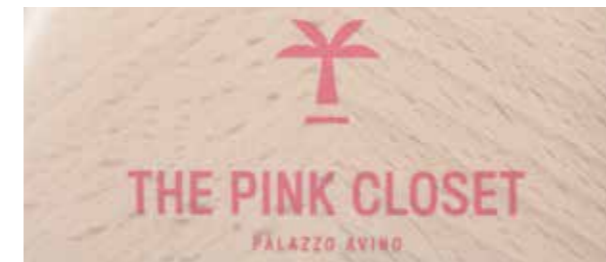

Each product is made in Italy with fine materials and attention to detail: each individual item embodies technique and design, perfection and uniqueness, the perfect combination of values to satisfy an attentive and refined audience.

Sostenibilità / Sustainability

**QUANDO ECONOMIA E AMBIENTE FANNO RIMA /
WHEN ECONOMY AND ENVIRONMENT RHYME**

Conciliare il controllo dei costi di produzione con il rispetto per l'ambiente è possibile, in Toscanini lo facciamo ben da prima che la sostenibilità divenisse un tema prioritario nell'agenda di tutte le imprese. Il rispetto delle risorse naturali è anche una forma di attaccamento al territorio, nel nostro caso la Valsesia con i suoi tanti corsi d'acqua e i boschi. /

Balancing the control of production costs with respect for the environment is possible; toscanini has been doing this long before sustainability became a priority issue in the agenda of all companies. Respect for natural resources is also a form of attachment to one's territory, in our case the Valsesia area, with its many waterways and forests.

**IL NOSTRO LEGNO HA LE CARTE IN REGOLA /
OUR WOOD HAS ALL THE CREDENTIALS**

Toscanini utilizza legname proveniente da foreste gestite in maniera responsabile secondo rigorosi standard ambientali, sociali ed economici. La foresta di origine è stata controllata e valutata in maniera indipendente in conformità a principi di buona gestione forestale. Il cedro rosso e il noce Canaletto, due essenze che importiamo dagli Stati Uniti, sono garantiti dalle falegnamerie fornitrici come provenienti da foreste gestite in maniera ecologica. /

Toscanini uses wood grown in forests managed in a responsible manner following strict environmental, social and economic standards. The forest of origin is inspected and evaluated in an independent manner in compliance with principles and criteria of good forestry management. Red cedar and the Canaletto walnut, two essences we import from the United States, are guaranteed by the exporters as coming from ecologically managed forests.

GARANZIA DI QUALITÀ / QUALITY ASSURANCE

L'ambiente si tutela anche seguendo un sistema organizzativo basato su regole condivise, stabilite per lavorare evitando sprechi dovuti a errori di produzione e di gestione. Toscanini ha ottenuto la certificazione UNI EN ISO9001 e ha coinvolto tutti i livelli aziendali per creare una cultura aziendale della qualità e della responsabilità. /

The environment is safeguarded by following an organizational system based on shared regulations that have been established so as to work avoiding waste due to production and management errors. Toscanini has obtained UNI EN ISO90001 certification that has involved the company at all levels to wider the sense of a culture of quality and responsibility.

VERNICIATURA ALL'ACQUA, E NON SOLO / WATER-BASED PAINTS AND MORE

La tecnologia aiuta la natura: è il caso delle vernici a base acqua che Toscanini ha adottato. I vantaggi di queste vernici sono l'impiego di una minor quantità di solventi (l'80% in meno!) e la riduzione degli scarti di residuo, abbattendo così i costi di smaltimento e trasporto. Toscanini da sempre propone finiture ecologiche come la ceratura con la cera carnauba e i trattamenti a olio naturali. /

Technology helps nature: this is the case for water-based paints that Toscanini has adopted a few years ago. The advantages of these paints are the use of a lower quantity of solvents (80% less) and the decreasing of residual waste, thus reducing disposal and transport costs. Toscanini has always proposed ecological finishing as waxing with carnauba wax and the natural oil treatments.

RIUTILIZZO E RISCALDAMENTO / RECYCLING AND HEATING

Percorrendo la strada che si snoda lungo la Valsesia, i due silos vi diranno che siete arrivati da Toscanini. I silos sono i depositi di trucioli di legno con cui alimentiamo la caldaia che riscalda gli uffici e lo stabilimento. Un tempo a righe bianchi e rossi, oggi i silos gemelli sono verdi, ma restano sempre icone di quell'impegno a non sprecare nulla che le generazioni passate hanno praticato con saggezza e che noi sentiamo quanto mai attuale. /

Riding along the road that winds up to Valsesia. The two silos will tell you that you have arrived to Toscanini. The silos are deposits of wood chips used to fuel the boiler that heats the offices and the establishment. Once stripped in white and red, today the twin silos are green, but they will always be an icon of the effort to avoid wasting anything, that the earlier generation has practiced with wisdom and that we feel is very present.

ACQUA E SVILUPPO / WATER AND DEVELOPMENT

Fin dai primi anni '80 l'azienda è impegnata nel recupero e nella rimessa in funzione delle centrali idroelettriche lungo il fiume Sesia e Mastallone. L'esperienza acquisita e l'intuizione che l'energia pulita prodotta dall'acqua avrebbe potuto giovare al territorio e all'azienda, ha portato a ammodernare e a creare nuove centrali idroelettriche. La nostra azienda produce 20 volte energia elettrica rispetto al suo fabbisogno. /

Since the beginning of the 1980s the company has been committed to the recovery and recommissioning of the hydroelectric power plants along the Sesia and Mastallone rivers. The experience acquired and the notion that the clean energy produced by water could benefit not only the territory but also the company, has encouraged the modernization and the creation of new hydroelectric power plants. Our company produces 20 times the electrical energy it needs.
